Can someone flip me the original letter and draft response in one email?

Subject: RE: AB RFA

On RCMP: PS said it was 40 RCMP officers that are being deployed under Article 9 though they are not using that number publicly.

Regarding other options:

- * RCMP have contacted 50 towing companies across the Western Provinces and 25 in the US but have had no success.

s.38

- * GOC has no funding available to support or incentivize the removal
- * Transport Canada does not have any towing assets. They are leaning in on the policy side with AB to identify any municipal assets for heavy towing (ie municipal transit authorities), possible help from Heavy Industry (oil and gas) or any regulatory support
- * Min. Alghabra is speaking to his counterpart today and I'm told will raise these questions. They would also be a good basis of conversation between Min. Blair and McIver.
- * One option which has not been fully explored is Alberta mandating compliance either through regulation or legislation. Currently trying to find out if those conversations have happened and what that would look like. AB would be in the best position as they regulate and licence vehicles.

Do we know how many RCMP were provided? And efforts to exhaust options? Briefing PM in less than an hour
